Case Manager

Entering new requests from scratch

If you are starting a new case, use Case Manager to make a request for records online. You do not have to enter all of your information at once. The program saves your information, so you can return to finish the request at your convenience.

Any fields labeled in red and marked with an asterisk are required information. Any other selections not relevant to your request can be left blank. If you are making a request on a continuing case, save time by copying and editing an existing request, instead of starting from scratch. (See “Creating new requests from old orders.”)

1. Click **Case Manager** in the navigation bar.
2. Click **New Case** (located at top right).
3. Under Case Information, enter the following applicable information:
 - **Style of Case** (required) – Enter the style of case as you wish it to appear on legal papers. If the style is longer than 50 characters by 7 lines, use the **Full Case Name** and **vs.** multi-line text fields.
 - **Case No.** – Enter the court-assigned cause number for this case.
 - **Rush** – If this is a rush order, select Yes in the drop-down.
 - **County** – If this is a *state* case, enter the county, such as “Harris.”
 - **Court** – If this is a *state* case, enter the judicial court information, such as “151st” or “County Court at Law Number Two.”

 - **Trial Date** – Enter the scheduled trial date, or click the calendar button and select the date in the pop-up Date Navigator.

5. Under Scheduling Attorney, enter the following applicable information:

 - **Firm** (required) – Enter the name of the law firm.

 - **Ordering Attorney** – Select Yes if the attorney is a co-counsel and will also sign the legal papers.
 - **Patient’s Attorney** – Select Yes if the attorney is the patient’s attorney.
 - **Represents** – Enter the name of the person or group the attorney represents.
3. Click **Save**.
4. Repeat steps 1–3 to add additional attorneys.

NOTE

You can revise the information about an attorney by clicking the edit (pencil) button. Or delete an attorney by clicking the delete (X) button.

Case Manager

Adding locations
