

OMTI Multiple Points Of Use Certificate

As a company that uses OMTI products both inside and outside of California, this Multiple Points of Use Certificate (MPU certificate) designates the allocation of that use for the purpose of calculating which portion of the company's subscriptions and purchases are subject to California's Sales & Use Tax and which portion is tax exempt.

Authorized Company Purchaser, Agent, or Employee

Signature

Name & Title

Date

This MPU certificate is in effect starting the 1st of the month after its completion, submission to, and approval of OMTI.

NOTES

- As a company headquartered in California, OMTI is required to collect state sales tax. It is the purchaser's responsibility to provide us with an accurate accounting of their in-state and out-of-state usage of OMTI products for the purpose of determining the amount of sales tax to charge. When adding or reducing the amount of user licenses you subscribe to, you must submit a revised MPU certificate to OMTI allocating in- and out-of-state usage. **If we do not receive an updated MPU before the first of the month of a change in subscriptions, we will charge sales tax on net new licenses.**
- It is the purchaser's responsibility to maintain adequate and complete records in accordance with [California Department of Tax and Fee Administration Regulation 1698](#) to substantiate the calculation used at the time of purchase for digital products purchased for multiple points of use.
