

Put your office in your clients' hands

Use RB Web Mobile Apps to connect your clients, resources and staff with their important information in your office instantly on their smartphones and tablets. Give them access to their transcripts and case files, schedule, job details including driving directions, invoices, pay statements, and more.

RB Web Mobile Apps work for:

- Lawyers
- Secretaries
- Paralegals
- Court reporters
- Videographers
- Interpreters
- Sales staff
- Office managers & agency owners

Top features for lawyers/secretaries/paralegals

- Their transcripts
- Case file repository
- Detailed job info, including map directions
- Invoices & statements with payment history & current outstanding amounts

Top features for reporters/videographers/interpreters

- One-touch job acknowledgements
- Detailed job info, including map directions
- Shared case files
- Pay statements & outstanding amounts owed to them

Benefits

- Information available instantly wherever they are.
- No need to carry around a laptop.
- No need to sign in every time.
- No waiting for a computer to boot up.
- No long URLs to type.
- No web page timing out.

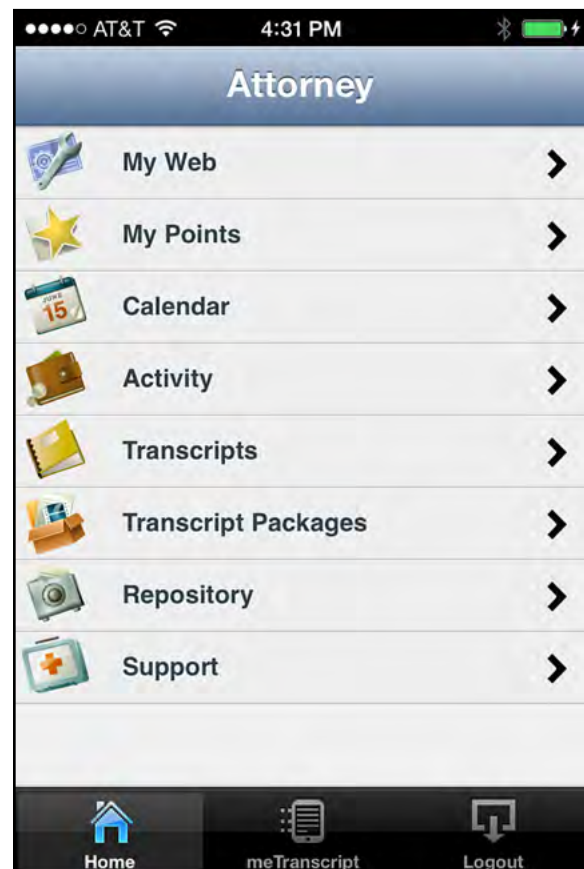

Major features for everybody

Information is secure. Users sign in with the user ID and password that you provide to access their dedicated information area. Users can change their user ID and/or password.

Users get details about upcoming scheduled jobs, including directions, in the Calendar. Calendar displays the current month's schedule. Users can page back and forth to see old or upcoming listings, and view any listing's details, including map directions.

Functions in RB Web Mobile Apps work the same as in your online office. If your clients, resources and staff already use your online offices, then they already know how to use the functions here.

Users can get support within the app. If users have questions, they can contact you via Support tickets and track the resolution of their issues.

Put your office in your clients' & resources' hands

Major features for lawyers/secretaries/paralegals

Calendar – Users can:

- Check their schedule.
- Use search criteria, such as witness or who placed an order, to limit which listings are displayed and/or find a specific entry.
- View any listing's details, including map directions.

Transcript Packages — On iPhones and Android devices, users can:

- View, search, highlight and comment on meTranscripts™, RB's transcripts designed to work on smartphones and tablets.
- Work on transcripts online or offline.
- Sync meTranscripts with versions on laptops, workstations or tablets, so no matter where they are, they are working with the latest version.

Transcripts — Users can:

- Search through their available RB-PDF transcripts in this exclusive repository area using search criteria, such as case, witness or job date.
- Mark transcripts as reviewed, so they can see when new ones have been uploaded and track when they reviewed others.

Repository – Users can:

- Search their case files by case name or number and other search criteria.
- View files.
- Mark files as reviewed, so they can see when new files have been uploaded and track when they reviewed files.
- View other files you maintain for them, such as price lists and contracts.

Activity – Users can:

- Look up outstanding and paid invoices.
- Use search criteria, such as case name, invoice date, and open or paid invoices, to limit which listings are displayed and/or find a specific invoice.
- View any invoice's details.

Support – Users can ask questions and track the resolution of their issues with the support ticket system.

My Points – With this RB Web plug-in, users can:

- Track their reward points.
- See their current points balance, pending amounts and history.
- Make requests to redeem or transfer points.

My Web – Users can:

- Update their contact information.
- Change their user ID and/or password.

Major features for reporters/videographers/interpreters/sales reps

Calendar – Users can:

- Check their schedule.
- Acknowledge new jobs with one touch.
- Use search criteria, such as firm or scheduled date, to limit which listings are displayed and/or find a specific entry.
- View any listing's details, including map directions or special notes about the job's firm or contact.

Repository – Users can:

- View their job files, including shared case files such as word lists, dictionaries and exhibits.
- Search their files by case name, job date range, job number and other search criteria.
- View other files you maintain for them, such as contracts.

Master Word List – Users can:

- Compile word lists from a job's or case's transcripts.
- Export word lists as PDF or TXT.
- Customize word list appearance.
- Include word counts.

Activity – Users can:

- See which jobs have been invoiced and what they are owed.
- Look up invoices for a particular case, job date or witness.
- Find out what their next paycheck will include.
- View any invoice's details.

Put your office in your resources' & staff's hands

Pay Statement – Users can:

- View current and past pay statements.
- Choose to see them with invoice details or not.

Time-Off – Users can view their work schedule and request time off.

Firms – Users can look up information about clients, including phone numbers and map directions.

Support – Users can ask questions and track the resolution of their issues with the support ticket system.

My Web – Users can:

- Update their contact information.
- Change their user ID and/or password.

Major features for owners/office managers/staff

Daily Assignment – Users can check that all jobs for a particular day have been assigned their appropriate resource(s).

Daily Audit – Users can:

- Find out how many new jobs were added to the calendar today and how many jobs were canceled.
- Audit new entries for typos and other mistakes.

Firms – Users can look up details about client firms, such as phone numbers and contact email addresses.

Resources – Users can look up details about their reporters, videographers and other resources.

Turnkey system with custom look

For the initial set-up fee, we will brand your RB Web Mobile App(s) with your company name and logo that you provide to our specifications. We will register your app with the appropriate app store, such as Android Market if you are buying the Android version.*

Each version incurs a separate monthly subscription fee. You can add or cancel versions at any time, so you pay for only the version(s) that you need. For example, if all of your clients use iPhones, you can subscribe to the iPhone version only. Each smartphone version includes modules for clients, resources and staff.

There is no additional charge for optional features, such as My Reward Points tracking, if you already have the feature in your RB Web.

Costs

Initial set-up per RB Web Mobile App

\$250 upfront flat fee

Subscription per RB Web Mobile App

\$50/month

Payment options

Automatic monthly credit card payment

See it for yourself

RB Web Mobile Apps are available for iPhone and Android. Download the demo from the App Store or the Android Market on your smartphone (type 'omti' or 'rbweb' to find it).

To subscribe to RB Web Mobile Apps or for more information, contact RB Sales.

RB Web Mobile Apps vs. RB Web Mobile On™

If you are looking for a less expensive option and don't need branded mobile apps, we also offer RB Web Mobile On™. It's a plug-in that provides almost all the functionality of RB Web Mobile Apps, but works through the browser on all mobile devices.

For more information, visit our website.

NOTE: RB Web Mobile Apps and RB Web Mobile On require an RB Web subscription and RB8 office management software to operate.

** The registration process for each smartphone app is different with different requirements and review processes. Contact us for details about the registration process, or we will provide you with the details during the registration process.*
